CAREER OBJECTIVE

Motivated and enthusiastic B.Tech Information Technology student with a strong foundation in Java, Python, Spring Boot, Flask, SQL, and full-stack web development. Passionate about building AI-powered applications and solving real-world problems through software engineering. Seeking an internship or entry-level Software Developer role where I can apply my technical skills, contribute to innovative projects, and continuously expand my knowledge.

EDUCATION

Easwari Engineering College
B.Tech in Information Technology

- **CGPA:** 8.0/10

Expected 2028
Chennai, India

INTERNSHIP

Infosys Springboard
Python Programming Virtual Intern

Ongoing
Remote

- Learned and applied Python programming fundamentals through hands-on projects
- Developed applications using **Object-Oriented Programming (OOP)** concepts
- Worked with file handling for reading, writing, and managing data efficiently
- Strengthened logical thinking and problem-solving through practical programming exercises

PROJECTS

INTER-VU – AI Mock Interview Platform | *Python, Flask, HTML5, CSS3, JavaScript, Google MediaPipe, Web Speech API, Flask-CORS*

- Developed a full-stack AI-powered mock interview platform that conducts live technical interviews with automated evaluation
- Integrated **Google MediaPipe** FaceMesh and Hands for real-time eye contact, posture, and hand gesture tracking using webcam analysis
- Implemented **Web Speech API** for AI voice-based interview questions and speech recognition for interactive candidate responses
- Designed an automated scoring engine evaluating 10 performance metrics, including Technical Knowledge, Communication, Confidence, Eye Contact, Body Language, Grammar, Speaking Pace, Professionalism, Problem Solving, and Overall Performance
- Built **Flask REST APIs** to store and retrieve interview session history, scores, feedback, and timestamps
- Created a responsive glassmorphism-inspired user interface with a live monitoring dashboard and animated performance score visualization

Warehouse Management System | *Java, Spring Boot, MySQL, HTML, CSS, JavaScript*

- Developed a warehouse inventory management application using **Java Spring Boot** and **MySQL**
- Implemented complete **CRUD** functionality for product management
- Designed an intuitive user interface using HTML, CSS, and JavaScript
- Connected frontend and backend for efficient inventory management and database operations

TECHNICAL SKILLS

Programming Languages : Java, Python, SQL, HTML5, CSS3, JavaScript

Frameworks & Libraries : Spring Boot, Flask, Flask-CORS

AI & APIs : Google MediaPipe FaceMesh, MediaPipe Hands, Web Speech API, RESTful APIs

Databases : MySQL, JSON

Tools & Technologies : Git, GitHub, VS Code, IntelliJ IDEA, Eclipse

Core Concepts : Object-Oriented Programming (OOP), Data Structures, Database Management Systems (DBMS), Software Development Life Cycle (SDLC), REST API Development

CERTIFICATIONS

AWS Certification | MongoDB Certification | Cisco Certification | NPTEL Certification

EXTRACURRICULAR ACTIVITIES

Video Editor experienced in creating professional content using DaVinci Resolve and CapCut.

Chess Player with strong analytical thinking, logical reasoning, and strategic problem-solving skills.
